Dear TAP Families,

Welcome to our school community! We are delighted to extend a heartfelt welcome to all families, including those who are navigating the journey of parenthood during their teenage years. At Teenage Parent HS (TAP), we understand the unique challenges and responsibilities that teenage parents face, and we provide comprehensive support and resources to ensure both academic success and personal growth.

Our school is committed to creating an inclusive environment where teenage parents feel supported and empowered. We offer tailored academic programs that accommodate individual schedules and needs, along with access to counseling services and parenting workshops. These resources are designed to help teenage parents balance their educational aspirations with the responsibilities of parenthood, fostering a positive and nurturing atmosphere for both parent and child.

Together with our dedicated staff and faculty, we encourage open communication and collaboration between families and school to create a strong support network. We believe in the potential of every student and are committed to helping teenage parents achieve their academic goals while nurturing their roles as parents. Welcome to TAP, where we embrace diversity, celebrate achievements, and support each member of our school community on their journey to success.

Sincerely,

Mr. Israel Macias-Reyes

Principal, Teenage Parent High School (TAP)
